(904) 535-9693 (MOBILE)

## EDUCATION

2000 – 2007 University of Florida, Gainesville, FL  
Ph.D. Physical Anthropology/Forensic Anthropology  
Dissertation: *Skeletal Evidence of Physical Activity in Hunter Gatherers, Agriculturalists and Industrialists*

1997 – 1999 University of Florida, Gainesville, FL  
M.A. Awarded December 1999  
Physical Anthropology / Anatomy  
Thesis: *Skeletal Evidence of Health, Disease, and Subsistence in Two Florida Archaic Sites: Bay West and Windover*

1994 - 1996 University of Florida, Gainesville, FL  
B.A. Awarded December 1996  
Anthropology/ Minor in Zoology  
*Summa cum Laude*

1991 - 1994 St. Petersburg Junior College, St. Petersburg, FL  
A.A. Awarded August 1994  
*With honors*

## RESEARCH INTERESTS

Biological anthropology; Forensic anthropology; Taphonomy, Paleopathology; Trauma analysis; Behavioral and physical adaptation; Florida Archaic; Natural and artificial forms of mummification; Functional morphology; Biomechanics; Hominid evolution; Human growth and development; Forensic science; Human rights; Forensic archaeology and mass fatalities response, Pedagogy, and Professional ethics.

## SPECIAL SKILLS

Identification & Trauma Analysis of skeletal, mummified, burned and decomposing remains (e.g., that are of modern, historic and prehistoric time periods) through metric, nonmetric,

radiographic (including MRI and CT scans) and histologic methods; Trauma analysis.

Evidence Processing	Processing buried, surface scattered and mass fatality scenes; Maintenance of chain-of-custody; Archiving physical evidence; Radiography.
Photography/Videography	Crime scene and specimen photography; Superimposition.
Discovery & Recovery	Analysis of aerial and satellite images, soil profiles, changes in vegetation, taphonomy, and the use of human remains detector dogs used to locate clandestine graves and surface scatter remains; forensic archaeology methods used in the exhumation of clandestine graves and decedents in cemeteries; mass fatalities response.
Laboratory Management	Trained laboratory personnel for compliance with OSHA requirements, HASMAT and Bloodborne pathogen programs; Official communications with medical examiners, police and sheriff's investigators, lawyers and federal agents regarding the laboratory's casework.
