Testimonials

"I really enjoyed your words at Alabama State University today. I was amazed at how you were able to keep the attention of 3,000 eighth graders. You could hear a pin drop during your presentation. Well done sir."

~ Lorrie - 2012 Montgomery Area Campaign to Prevent Teen Pregnancy

"I am refreshed! I was asked to go to a reading conference held at Gulf Coast State College on last Saturday. I did not want to go for several reason. I was fed up with my students and was considering going into another profession. After hearing Willie speak I had a complete change of heart. Monday morning I implemented two of his stratiges and I had instant success. The teacher next door to me caught me crying, I was so overwhelmed. I am so happy I was encouraged to go to the conference. As Willie says: Teaching is the most important profession, because we teach all professions. I have a very important job; and now more than every I'm motivated to do it."

~ Mary, Elementary Teacher Florida

"I wanted to take a minute to thank you for coming back to the Bangin' Bay and visiting my school, Jinks. Usually assemblies are lame but you're a wonderful motivational speaker and I actually enjoyed myself. You inspired me in many ways. You made me think twice about my choices, my friends, and the way I carry myself. Again thank you for your time and keep up the great work. You are making a difference."

~ Alexis Steele, student

Willie Spears speaks to 3,000 eighth graders about making good choices in life at the Montgomery (Ala.) Area Campaign to Prevent Teen Pregnancy "Survive and Thrive" event.

Author

Willie Spears has written three books dealing with young adult issues. The books, *Keisha's Dilemma*, *The Ultimate Dilemma*, and *Derek's Dilemma*,

follow the happenings of the main character Keisha.

What Readers Are Saying

"Being an educator in my past and teaching Life Management Skills, this book would have been a requirement for my classes! It covers very sensitive subjects that parents have a hard time discussing with their children. It opens doors! I feel that it should be required reading for ALL kids in highschool, possibly even middle school. If one person benefits from reading this book, then Willie Spears has done his job! I look forward to more books from this author! "

~ Sylvia Hebert, Park City, UT

"Keisha's Dilemma is a must read for today's teenager. It shoots straight in a language written for young adults of the 21st century. It would make for a great discussion topic in adolescent counseling groups about personal/ physical health, decision making and faith. I would recommend this book to all my pre-teen and teenage family members and friends."

~ Shawnia, Former Drug Addiction Counselor, Current Guidance Counselor
