Field	Personal	Office
<ul style="list-style-type: none"> • BC Heritage Conservation Act permit holder since 2006 • Organizing and conducting archaeological and historic impact assessments, inventories, excavation and monitoring • Special expertise in forestry archaeological management and culturally modified tree sites • Indigenous (traditional) use studies and inventories • Historic, industrial and architectural assessment • Excellent orientation and map-making skills (classical and digital) • Rural, urban, industrial, forested field study experience 	<ul style="list-style-type: none"> • Expertise in small- and large-scale infrastructure assessment processes • Expertise in governance and policy pertinent to cultural heritage and common developments • Designing Indigenous use studies • Organization and delivery of heritage orientation and training modules • Exceptional written and verbal communication skills • Supervision of field crews and office staff, and co-ordination of independent contractors • Public speaking and group engagement, training, orientation • Facilitation of liaisons between First Nations and industry 	<ul style="list-style-type: none"> • Online, archival, institutional and community-based research • First Nations' rights and interests research for BC and Canada's Environmental Assessment processes • Heritage policy evaluation and development • Exceptional technical and scientific report writing and editing • Clear and creative writing for media and popular audiences • Cataloguing, curation and assessment of historic and prehistoric materials • Creative, conscientious and detail-oriented

Pacific Heritage Projects, 2006-2016

Skeetchestn Natural Resource Corporation archaeological stewardship, with Skeetchestn Indian Band (Deadman's Creek/Savona/Kamloops, BC)

Representing Skeetchestn interests in the management and governance of archaeological resources in their traditional territories, including regulatory assessments and liaison with government, crown agencies and corporations, industry, neighbouring First Nations, and the media.

Pípsell Heritage Project, with Stk'emlupsemc te Secwepemc Nation (Kamloops, BC)

A Nation-level multi-component cultural heritage study to support the [SSN's ground-breaking project review](#) of the proposed KGHM Ajax Mine. Coordination of multi-community participation in studies of archaeology, ethnobotany, contemporary and historical land use, genealogy and family history, traditions and knowledge of natural resource management and governance. Includes audits of heritage resource management studies and decisions taken by development proponents and government.

[Simon Fraser University's Professional MA in Heritage Resource Management](#), with John Welch (SFU), George Nicholas (SFU), Christopher Dore (ASU), Dave Maxwell (SFU) and Michael Klassen (Klahanie) (Burnaby, BC)

A unique, thesis-based professional academic stream covering ethical, legal, business and research priorities in heritage resource management. Program advising and development (with George Nicholas) of course ARCH 541, Heritage Resource Management Practice and Ethics.

Hands On Archaeology, community-based archaeological outreach (Kamloops, BC)

Bringing archaeology to the public through interactive pop-up exhibits at farmer's markets, community events, and in the schools. Using local material culture from active archaeological fieldwork and museum collections to stimulate discussion about the human past and the business end of archaeology.

First Nations Values Data Assembly Project (FNDAP), with First Nations Emergency Services Society, the BC Wildfire Service, Ministry of Aboriginal Relations and Reconciliation, and Ktunaxa Nation Tribal Council (Kamloops/Victoria/Cranbrook, BC)

Phase I of identifying the spectrum of land-based Indigenous values to be safeguarded in the course of planning for and responding to wildland and interface fires. Includes collaborative evaluation of data and policy related to cultural and natural resources, and development of policy and procedure for fire planning and response personnel.

Beaver Lake Cree Nation Traditional Use Study, a community-led land use and occupancy project with the Beaver Lake Cree Nation and Certes Natural and Applied Sciences (Lac La Biche, Alberta)

Research and documentation of land use and land use changes in Beaver Lake traditional territory, for engagement with oil and gas industry proponents and the province of Alberta. Included historical, archival and archaeological research, collaborative design of interview processes and community member training.

Tl'azt'en Traditional Knowledge Study, a community-led cultural heritage and land use project with Tl'azt'en First Nation (Tache/Fort St James, BC)

Research and documentation of land use and land use changes in Tl'azt'en traditional territory, for engagement with the BC Environmental Assessment Office and TransCanada Pipelines. Included collaborative design, conduct, and analysis of community member interviews, data visualization and regulatory reporting.

Cultural Heritage Policy Review and Development, for Tsleil-Waututh First Nation and Skeetchestn Indian Band, respectively (North Vancouver and Savona/Deadman's Creek, BC)

Examination of existing community cultural heritage policies and laws, formulating recommendations based on community-specific goals, capacity and relative strengths of tradition and settler heritage governance tools.

Golden Ears Bridge Archaeological Project, a community-led archaeological management project with Katzie First Nation's Katzie Development Corp. (Maple Ridge/Langley/Pitt Meadows, BC)

Designing and conducting archaeological impact assessment and mitigation studies. Included community-led development of policy and process, commercial practice, and training.

The South Texada Island Archaeology Project, a community-led archaeological research and management project with Tla'amin Nation and BC Parks (Texada Island, BC)

Archaeological inventory and management at South Texada Island Provincial Park in the northern Salish Sea. Included design and coordination of field inventory and management recommendations.

Volunteer experience

Kamloops Heritage Commission, 2016-

Member of advisory body on municipal heritage governance, preservation and commemoration

Telus World of Science's Scientists and Innovators in Schools program, 2016-

Visiting archaeological educator for school-aged children, professional development programming on cultural heritage for teachers

BC Association of Professional Archaeologists (BCAPA), 2014-16

First Nations liaison committee member

Archaeological Society of British Columbia, 2007-2009
